CLRG-1004 und CLRG-502	<p>unser Kunde verwenden das Produkt Enerpac CLRG-1004 und das Produkt CLRG-502. Als Pumpe verwenden wir den 700 bar PUM-3409E. Wenn wir diese Zylinder und Pumpen verwenden, arbeiten wir jedoch mit dem Grenzdruck. Wir möchten diese Pumpe bei einem niedrigeren Druck wie 600 bar verwenden. Aus diesem Grund suchen wir nach 2 verschiedenen Buchsen mit den gleichen Kapazitäten wie die Produkte CLRG-1004 und CLRG-502 mit der gleichen Größe und dem gleichen Hub. Wenn Sie es haben, können Sie uns einen geeigneten produkt Anbieten?</p>
