

Solcon

Garanti: 12 ay
Bu ¼r¼ne ait T¼rkiye i¼i kapı teslim fiyat ve teslim s¼resi i¼eren teklifimizi almak i¼in **info@yursat.com.tr** e-posta adresine baŐvuru yapabilir ya da ayrıntılı bilgi i¼in +90 224 240 03 04 numaralı telefonumuzdan bizlere ulaŐabilirsiniz.
Solcon Markası, tedarik s¼resi i¼in l¼tfen bizimle iletiŐime ge¼iniz.

Firmamız Solcon T¼rkiye Distrib¼t¼r¼ veya temsilcisi deĐildir. Firmamız sipariŐ durumunda, belirtilen ¼r¼nlerde sadece Orjinal ve yeni ¼r¼n teklifi sunulmaktadır. Bu sitede g¼sterilen ¼zel marka adları ve ticari markalar ilgili sahiplerinin m¼lkiyetindedir, talep durumunda kaldırılmaktadır.

¼r¼n	A¼ıklama
Msr-Hd-P-V-1p-2-0-M-I	<p>Artikelnr.: 700500 Fully equipped, digital, microprocessor-based motor protection relay with 10 PT 100 inputs. Separate alarm and trigger relay for separate detection and MODBUS communication. Occurring Faults that are not recognized by the soft starter are recognized by the MSR. This then opens the Line contactors. With a high short-circuit current that is above the breaking capacity of the contactor, the line contactor remains switched on so that the upstream fuse can switch off the fault current. integrated contacts Programmable multifunction inputs and outputs (optically isolated) - 4 digital inputs - 4 changeover contacts 8A / 250 V. - 4 analog outputs - 4 analog inputs - Modbus - LEDs on, stop, start, run - LED triggering, alarm, relay, A, B, The motor protection relay has the following protective functions:</p> <ul style="list-style-type: none">• (51R) Overcurrent (overload) with adjustable delay• (50) Overcurrent (short circuit) with adjustable delay (only in connection with circuit breaker and Protective transformers)• (37) undercurrent with adjustable delay• (46) current unbalance• (27) undervoltage with adjustable delay• (59) Overvoltage with adjustable delay• (32L) under current release with adjustable delay• (50G) earth fault alarm with adjustable delay• (50N) earth fault tripping with adjustable

	delay • (47) phase error • (47) phase sequence • (48) Start time too long • (66) Too many starts • (51L) load increase • (49/51) Thermal overload • (49S / 51) blocked rotor • (49R) Motor overtemperature - thermistor input (Pt100) • (55) Low power factor • (86/94) External error • (3) Internal error • (3) Communication error MSR-HD and MPS 3000 are identical units. It is a motor protection relay.
